

## NUTRITION MONTH PRAYER

Almighty Creator, we thank and praise You for the countless blessings You have so freely sent us- the bounty of our country's natural resources, our good health and the wonderful people in our lives;

You have blessed us with well-nourished and bright children and youth who are making their marks in science tilt, sports competition, information technology culture and arts and in other fields;

We rejoice that You take care of our children and youth while You take care of us;

With You, all things are possible; there is no place for doubts, fears and worries, for You have it all covered according to Your plan.

Please continue to sow in our children and youth the seeds of excellence, leadership, respect for their parents and elders, love of their country and genuine service, for them to inspire and help shape a world of joy not of tears, a world of success not of struggles, a world where each day becomes a celebration of life.

Amen.
